

Foundation Studies

These are studies on the basic beliefs of the Christian faith. The first study is unique and designed to be read in its entirety by both discipler and disciple. The rest of the studies work best when using the following steps:

1. Read the verse.
2. Ask the following question, "*What does this verse say about (the topic)?*"
3. Answer the question. Take a few minutes and try to encourage the disciple to come up with personalized responses. Don't skip to #4.
4. Read the "answer" section of the study.
