ENERGIZING

WEAKENING

What cycle are you going around on?

What is there in you that God needs to have control of?

In moving from the “weakening cycle” to the “energizing cycle” it is crucial for a married couple to delight in their differences and to see that God is at work making them into a team. As we seek God together He will bless us with the joy He intends for our lives and marriages (John 15:11).

Some suggestions:
